

**EXHIBIT A**  
**REQUEST FOR PROPOSAL (RFP)**  
**TO PROVIDE PROFESSIONAL GENERAL ENGINEERING SERVICES**  
**FOR 2025 AND 2026**

I. General: The Vadnais Lake Area Water Management Organization (VLAWMO) seeks proposals from qualified engineering firms to provide professional general engineering services on an “as needed” basis. The VLAWMO Board has renewed funding allocation for general engineering services. VLAWMO will select a firm to provide the services requested using its policy based on those outlined in the League of Minnesota Cities guidance, the experience and technical capacity of the Firm, and the scope of services listed below

For 2025 and 2026 VLAWMO will again be developing an engineering “pool” list which will be a formal list of firms that were not selected as the VLAWMO general engineer that the VLAWMO may draw on for special project and services. This new engineering pool list essentially are pre-qualifying firms that may perform work for the VLAWMO for any specialty or technical work area (as listed below) at the discretion of the administrator.

II. Scope of Services: VLAWMO seeks professional engineering services to assist with particular projects or watershed studies and planning efforts as needed. Services will be within the scope of professional engineering, modeling, analysis and surveying. Primary services may be focused on (but is not limited to) the following:

- A. Stormwater management
- B. Public drainage management
- C. Feasibility studies
- D. Design assistance
- E. Project management
- F. Engineering help with grant applications
- G. The Engineer will become familiar with VLAWMO stormwater policy.
- H. Meeting attendance or presentations as needed with Board, Technical Commission or stakeholders
- I. Stormwater management review and comment of development applications, as requested.

For further reference, please see [VLAWMO’s Comprehensive Watershed Management Plan at vlawmo.org](http://www.vlawmo.org), with the WMO’s Plan Implementation table on page 57.

III. Term of Contract: VLAWMO shall enter into a two-year term contract with the selected general engineering firm for services on an as-needed basis. The general engineering services contract is attached to this RFP and the terms and conditions within the engineering contract as attached are expected to be approved by the selected firm pool without revisions. The contract may be renewed, at the discretion of VLAWMO.

IV. Evaluation of Proposals: Selection criteria shall include the information relevant to the scope of services in part II, experience and technical capacity of the firm, references, and VLAWMO experience with the engineering firm. VLAWMO encourages firms that it has or has not worked with to consider bidding. Any firm that is not selected to provide general engineering services may be placed in the VLAWMO engineering pool.

V. Contents of Proposals: The name, experience, and qualifications of the primary consultants and relevant support professionals should be included along with billing rates for all included staff. Cover letters, other clients and projects completed as well as references will be helpful to the evaluation. Please keep proposals to 10 pages or less. Each firm submitting a proposal in response to this Request for Proposal (RFP) must submit electronically via PDF format to the VLAWMO contact: Phil Belfiori, Administrator, [phil.belfiori@vlawmo.org](mailto:phil.belfiori@vlawmo.org).

VI. Rejection of Proposals: VLAWMO reserves the right to reject any or all proposals received.

VII. Deadline: All proposals must be received electronically in PDF format by 4:00 PM on September 27, 2024, submitted to [phil.belfiori@vlawmo.org](mailto:phil.belfiori@vlawmo.org). Questions should be addressed to Phil Belfiori by email and phone.
