Recent timeline of West Vadnais Lake (WVL) seeking appropriate watershed designation

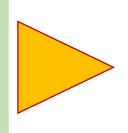

Attachment 5

RWMWD
expands to
include Grass
Lake WMO.
Grass Lake
subwatershed is
main
contributor
to WVL

VLAWMO includes very small portion of partnership funding for WVL in 10-year plan, commensurate with subwatershed contribution in VLAWMO boundary

RWMWD
completes report
that prioritizes
WVL in ongoing
maintenance of
RWMWD's carp
program

RWMWD hires
Barr to investigate
connectivity of
berm between
EVL & WVL due to
flooding concerns.
Study determines
"lakes are
hydrologically
independent"

RWMWD
completes EAW
for outlet
modification from
WVL to lower
outlet level &
reduce flooding
pressure; project
completion
follows

VLAWMO and RWMWD collaborate on carp in WVL; VLAWMO's contribution is small portion of total program

RWMWD informs
VLAWMO of intent
to request
boundary change.
Formal letter
received: RWMWD
assumes
responsibility for
future WQ in WVL

City Council &
VLAWMO Board
meet; agree to
support
RWMWD's
intended petition
for boundary
change

RWMWD attends
VLAWMO Board to present scientific rationale for boundary change

VLAWMO keeps
To put the control of t

RWMWD sends
email stating
that they no
longer wish to
pursue
boundary
change

VLAWMO
meets with
MPCA for
guidance;
TMDL
development is
not required
